

# War Card Game

## Supplies

- Deck of cards

## Instructions

1. Deal deck of cards into two piles, one for you and one for your opponent.
2. At the same time, both you and your opponent must flip the card on the top of your pile so that it is face up in the middle of the table.
3. The player with the higher card gets that pair from the middle.
4. If there is a tie and you both flip the same card, place three more cards face down in the middle of the table from the top of your pile and flip a fourth card facing up. The higher one between these two is the winner and gets to take all 8 cards from the middle into their winning pile.
5. Continue until each player runs out of cards.
6. Count all the cards in each person's winning pile, the one with more cards wins.

## Roles, Routines, and Cueing (for care partner)

- **Ask** him/her to help you
- **Show** him/her how to do the activity repeatedly
- **Help** with the activity if necessary
